EDUCATION

University of Washington, Seattle

Sep 2020 – Jun 2024

Bachelor of Arts in Geography — Data Science Option | Minor in Informatics

- Relevant coursework: Statistics, Data Visualization, Database Management, Geographic Information Systems.

EXPERIENCE

Royal Thai Army — Bangkok, Thailand

Nov 2025 – Apr 2026

National Service (Mandatory Military Conscription)

Boonrawd Trading Co., Ltd. — Bangkok, Thailand

Feb 2025 – Nov 2025

Trade Marketing Analyst Intern

- Cut manual reporting time by 50% and reduced reporting errors by automating data consolidation and cleaning workflows in Excel and Power Query.
- Enabled the marketing team to evaluate campaign effectiveness across 3 sales channels by building logic-based ROI tracking models for tiered and cumulative trade promotions.
- Surfaced customer segmentation patterns and product-level performance trends by cleaning and analyzing 1M+ transaction records from credit and cash-van operations.

Chememan Public Co., Ltd. — Thailand

Jun 2023 – Aug 2023

Application Specialist Intern

- Improved application load speed by 30% for 50+ internal users by migrating and optimizing 2 business applications onto the SAPUI5 framework.
- Delivered enterprise-ready, client-facing applications by gathering and translating requirements from cross-functional stakeholders into technical specifications.

Government Big Data Institute (GBDi) — Bangkok, Thailand

Aug 2022 – Sep 2022

Data Analyst Intern

- Identified nationwide enrollment and equity trends by conducting statistical analysis on 100K+ student records using SQL and Excel.
- Supported government policy decisions by building interactive Power BI dashboards that tracked key education KPIs for stakeholders.

PROJECTS & RESEARCH

DubHacks 2022 Hackathon — Major League Hacking

Oct 2022

- Built and presented a working front-end (HTML, CSS) for a non-profit-to-sponsor matching platform as part of a 4-person team within a 24-hour build window.

Directed Research — University of Washington

Jan 2022 – Mar 2022

- Developed an “ideal design signature” framework analyzing design-process expertise, later adopted by faculty for academic publications and coursework.

CORE SKILLS

Querying & Programming: SQL, Python (pandas, NumPy, matplotlib), R

BI & Visualization: Power BI, Tableau, Power Query, Excel (PivotTables, VBA), qGIS

Analytics: ETL & data pipelines, data cleaning & wrangling, statistical analysis, A/B testing & experimentation, KPI tracking & dashboarding, customer segmentation, data visualization

Workflow: Git & GitHub, stakeholder management, business requirements gathering

Languages: English (Fluent), Thai (Native), Mandarin (Conversational)

LEADERSHIP

Thai Student Association at UW — Internal Secretary & Event Coordinator

Nov 2020 – Jun 2024

- Coordinated logistics and budgeting for events with 100+ attendees, strengthening cross-cultural communication.
